The **minimum** insurance limits are as follows;

Contractor's Equipment or Inland Marine

Leased/ Rental Items Value
Or policy limits

If you do not have the General Liability and Contractor's Equipment / Inland Marine policy, we will charge you the 14% loss damage waiver. A certificate can be for the value of the equipment you are renting at that time. (In this case you would need to make sure you send in a certificate for every rental.) Otherwise, a certificate can be sent in with the limits of your policy, good for all rentals, as long as the equipment value you are renting does not exceed your policy limit. Please forward this to your insurance company or call if you have any questions.
